Inetum announces the deployment of its SAP expertise in several more cities in France

Inetum, the European leader in digital services and solutions and an SAP partner for over 20 years, announces the deployment of its expertise in several French cities. Already present in Lille, Paris, Lyon and Nice, the IT services company's SAP teams plan to strengthen their presence in various regions and to deploy their local experts in Strasbourg, Nantes, Toulouse, Bordeaux and Marseilles in order to meet clients' needs.

A key market partner for SAP solutions

With 27,000 employees in 27 countries, Inetum is the go-to partner for its clients in consulting, integration and maintenance of information systems. Inetum's SAP teams consist of approximately 2,700 consultants covering the entire SAP solution portfolio.

Inetum is a SAP distribution partner and has certified several service centers offering migration to S/4HANA, implementation of Cloud solutions, application maintenance, etc. What makes these service centers particularly useful is that they are all located in Europe.

Guarantee local support

The SAP Inetum business unit is developing in the same direction as the Group, with a focus on sustainable growth. In France, outside of the Paris region, Inetum has 50 SAP experts in Lille, Lyon and Sophia Antipolis, and plans to double its workforce in the various regions by recruiting in Strasbourg, Nantes, Toulouse, Bordeaux and Marseilles in 2023. The purpose of this extension is twofold: to reinforce Inetum's position as a go-to SAP partner in France, and to amplify its local anchoring in order to address its clients' challenges.

"Inetum has an excellent base when it comes to expertise in and the integration of SAP solutions. By strengthening of our teams throughout France, we are confirming our intention to help our clients master their digital flow with the best advice and SAP solutions on the market," says Michael Perrin, Head of the SAP BU in France, and Group Vice President at Inetum.

Inetum, which has been certified Top Employer Europe 2023, is opening 50 positions for experienced SAP profiles among its 3,300 recruitments planned in France in 2023.
